Class Procedures

Classes: Certification classes are designed to assist you with your preparation for CPIM, CSCP, CLTD and CTSC certification examinations. CPIM Introduction is an introductory class. All other classes are intended for people with either academic or on-the-job experience. Non CPIM/CSCP/CLTD/CTSC courses are general education not certification courses.

Private Classes: We are happy to discuss private corporate classes upon request. Contact Honey Johnson, VP of Education at (303) 421-0797 or apicsco81@aol.com

Exam Credits: Credits for the CPIM/CSCP/CLTD exams are good for 6 months from the date of exam credit issue. Please do not request a credit until you are ready to sit for the examination. ASCM Colorado Chapter honors requests for Exam Credits up to 2 years from date of certification course registration.

Refunds: All refunds will be considered on a case-by-case basis and will be awarded at the discretion of the VP of Education.

Retakes: If you have taken a review class from us in the past 12 months and have not passed the corresponding examination, you can retake the class at no charge, otherwise class retakes are $100. You will need to provide a copy of your ASCM Colorado Chapter class certificate and bring your book to class. Other re-take options will be considered on a case-by-case basis.

Certificates of Recognition: Certificates are awarded on the basis of attendance.

Computer-Based Testing (CBT) Registration at Pearson VUE Test Centers: Registration requires a minimum of 48 hours up to 90 days in advance. Exams will be offered six days a week. **Visit the ASCM web site at www.ascm.org/certification to access a link to the secured Pearson VUE online registration site and obtain an Authorization to Test (ATT)**

Instructors: All instructors are qualified, experienced professionals and are ASCM Certified instructors and participating in the ASCM Instructor Development Program (IDP).

"ASCM has helped me realize that I still had much to learn in the supply chain realm. I have been in purchasing for smaller companies for ~5 years and Colorado ASCM and its instructors have taught me different ways to look at things and how every supply chain decision can affect a business. APICS class has definitely improved my supply chain knowledge and will help me make decisions and grow in my career."
Zachery Meintzer, CPIM, Buyer, Gogo Business Aviation

"I am a supply chain professional of more than 15 years, and MCIPS Qualified. I had an opportunity to study the CSCP Course through my employer and was keen to brush up my existing knowledge and skills. The Colorado ASCM course has provided me with a wider knowledge and understanding of the end-to-end supply chain. The instructor-led learning gives an opportunity to ask questions to these supply chain professionals as well as other students. The online learning material is categorised into easier to follow modules and test questions to help prepare for the exam. I would recommend this course to anyone wanting to polish their supply chain skills and keep up to date with the ever-changing supply chain environment. It's a valuable investment."
Angie Armstrong, CSCP, MCIPS, Senior Global Sourcing Manager, CooperVision UK

What are Students saying about APICS Education in Colorado?

"Taking the Colorado Chapter ASCM CPIM course in Spring 2024 was instrumental to my passing the CPIM exam. Honey and Roger spent hours imparting their wealth of knowledge while encouraging open discussions and bringing in real world examples to ensure we understood the material. Their insights were genuinely helpful and I would encourage anyone pursuing their CPIM certification (or another ASCM certification) to take this course. I can't recommend it enough!" **Molly Gilbert, CPIM, Master Supply Planning Manager, Ball Corporation**

"I recently completed the APICS CPIM course through the Colorado ASCM Chapter to prepare for the CPIM exam. I highly recommend this chapter for anyone wanting to improve their supply chain expertise or get ready for ASCM exams. The classes were extremely interactive, with students sharing real-life work experiences and challenges. The instructors were very knowledgeable and consistently available for discussions and assistance as needed." **Itode Fubara, Supply Chain Manager, General Shale Brick**

"I signed up for the CSCP course at the end of May where I was going to study on my own and later take the test when I felt ready. As I read about the weekly class, I was a little hesitant at first, but I'm so glad I enrolled in the course held by the Colorado ASCM Chapter. I started at the end of July and took it weekly through November. The class was intuitive, stimulating and I can honestly say it helped me to pass the CSCP exam by December. I highly recommend the class to any aspiring CSCP professional!" **Anabelen Mendoza, CSCP, JBS USA, International Documentation Specialist**

"I began working toward obtaining my CPIM soon after beginning my career in manufacturing. Everything I have learned from APICS/ASCM has elevated my effectiveness in my job, even before I received the certification. The classes I attended with Colorado Chapter 81 were especially additive in my education, analogizing the often-difficult study concepts to real-world, recognizable organizations and scenarios. If your career has anything to do with supply chains, production, quality, purchasing, etc., you cannot go wrong with CPIM**." Jason Rhine, CPIM, Production Planner, Gogo Business Aviation**

"I came into the Colorado ASCM Chapter's CSCP course to expand my Supply Chain knowledge after several years in Distribution for CooperVision. It was made very clear to us that course would cover a wide range of Supply Chain topics and take a lot of work and effort from us as students. This was true but the course was very rewarding. We had a large group with a wide and varied background in the organisation and we found that this led to some high value interactions on subjects throughout the course. I've been able to utilise the knowledge in my role as some of my own team also took the course at the same time. This in turn expanded and improved my knowledge and understanding of subject matter. I plan to use the qualification and knowledge in my continuing work managing Supply Chain processes. **David Bowers, CSCP, Global Logistics Process Manager, CooperVision UK**
