ASCM Colorado Chapter Virtual Professional Development Meeting
Wednesday April 9th at 5:30 pm (MDT)

Topic: Make W.I.S.E. Business Decisions no matter the circumstances

Speaker: Dan Kowalski, Author of *W.I.S.E. Choices at Work*

Virtual: A link will be emailed to you on 4/8/25

Make W.I.S.E. Business Decisions no matter the circumstances

We make 1000s of decisions every day. Most of the time, we don't even think about them. What to wear or eat is usually easy to choose. The choice of what project to start or what new product to launch creates lots more challenges. This intensifies as more people or departments provide their 'advice' while the decision deadline looms.

In this talk, based on the book *W.I.S.E. Choices at Work*, we will learn to understand what type of decision we face. This will help us avoid paralysis by analysis for simple decisions and understand what level of rigor complex decisions need. We will also cover the basic elements of a visible decision-making process. The approach helps people start in the right direction and, more importantly, stay on track. This approach provides a written record of the decision for future reference.

Dan Kowalski works independently as a Solution Instigator. This means he asks the questions that people don't know to ask, think to ask, or sometimes are afraid to ask. When he does this, his clients develop better answers. He has worked for every type of company around the world in many industries for over 30 years.

Coach's Corner

Happy April! Spring has finally arrived. Our ASCM Fiscal Year 2025 has 3 months left and we have several events planned for networking, education and presentations.

Our April PDM is a virtual meeting featuring Dan Kowalski speaking about "W.I.S.E. choices at work". Our progressive drawing is up to $500 for April, so be on line to have a chance at this payday!

Our May Meeting will be in person and virtual simulcast at the Denver Aquarium, featuring Mark Lauterbach speaking about "Career Growth and Coaching". We will also have a June networking evening with food and drink on 6/30/25 at the School House Kitchen in Arvada. In July we will have our annual virtual Chapter Town Hall update.

This year we have had a mixture of Tours, In Person PDM's, Virtual PDM's, Networking Sessions, at hotels and local establishments. I hope that you have found the topics and events useful in your careers and that you have met some folks that you can collaborate with on supply chain issues.

Lee Contreras, the Colorado Chapter's Nominations Chairwoman, has provided the following slate of Colorado Chapter Board of Directors for elected officer positions for our 2025-2026 ASCM year. We will introduce these folks and vote at our May PDM. The elected positions are:

President & Coach: **Roger Harris**
VP of Programs: **Open**
Treasurer: **Gary Williams**
VP of Professional Development: **Honey Johnson**
VP of Membership: **Jerry McQuie**
Secretary: **Jamie Swan**

We are still short a couple of folks for these elected positions. Both our elected BOD's and our appointed Directors are Rock Stars! If you would like to join our team, please contact me at rharris@mss-technologies.com

Please continue to attend our programs and continue to learn more and improve your supply chain skill set. Thanks for being part of the Colorado ASCM Chapter. Please let me know if you have questions or need something from our Chapter

Education News

Happy Spring, everyone! Even though the calendar says it's Springtime, keep those boots handy! We may see a bit more winter before those spring flowers come to stay!

Our Colorado Chapter will offer a full schedule in the Fall with the **Certification in Planning and Inventory Management (CPIM)** and **Certified Supply Chain Professional (CSCP)** courses and the recently updated **Certified in Logistics, Transportation and Distribution (CLTD)** class. Fall schedule dates will be announced this summer with details and times.

Our Chapter's **Sales and Operations Planning (S&OP)** course continues to receive very positive reviews! We will have the next class in October. Registration will be open in late summer for the fall lineup. The S&OP course provides a good foundation to help you begin a S&OP process for your organization or to improve your current S&OP practices. Contact me if you may be interested in a private S&OP course for your organization.

We did not have any newly APICS certified professionals at our last Professional Development event, but I look forward to recognizing new certification holders in the coming months! I always enjoy the opportunity to celebrate success with folks as they earn their certifications! When you have achieved your APICS certification, we'd love to recognize your hard work! Register and attend one of our monthly dinner meetings (September to May except December) so we can congratulate you as a new CPIM, CSCP or CLTD certified professional. You will receive your certification lapel pin and a crisp $100 reward!

We have several companies holding private APICS classes for their folks. If this is of interest to you, please contact me directly to discuss options for scheduling private APICS programs for your team virtually or in-person at your company's site.

As always, please let me know if you have questions regarding APICS Education.
Let us help you as you continue your lifelong learning.

See you in a Colorado ASCM/APICS Education program soon!

Best Regards,

Honey

Associated Thermoforming Inc ISO 9001:2015 Certified

"I highly recommend the APICS CPIM course through the Colorado ASCM Chapter. The course is incredibly valuable for any Supply Chain Professional looking to further their career or increase their effectiveness in their current position. The instructors at the Colorado Chapter are very knowledgeable and present the challenging subject matter in a way that is easy to understand and absorb. If you are thinking of obtaining your CPIM certification, the Colorado ASCM Chapter will provide you with the tools to achieve that goal!" **Stephanie DeBlase, CPIM, Materials Manager, Associated Thermoforming, Inc.**

LOCKHEED MARTIN

"I highly recommend the CPIM course to any individuals interested in learning in-depth about supply chain. I found this course extremely helpful in my current supply chain role. I have been able to apply what I learned to everyday worklife and have a much better understanding of supply chain as a whole. I also highly recommend the training and course offered through the APICS Colorado Chapter. The instructors, course and materials have been exceptional and integral to optimum learning and success." **Christine Currie, Lockheed Martin National Security Space Manufacturing Planner**

APICS Certified Supply Chain Professional (CSCP)

Become a Certified Supply Chain Professional (CSCP)
Tap the power of your supply networks to streamline processes, enhance collaboration and boost the bottom-line.

CSCP Learning System Components:

The CSCP Learning System is a comprehensive professional development program that will help candidates prepare for the CSCP examination. The learning system is based on the CSCP body of knowledge and features print-based study materials as well as online tools, including an assessment component that enhances the learning experience.

CSCP Modules

- Module 1: Supply Chains, Demand Management and Forecasting
- Module 2: Global Supply Chain Networks
- Module 3: Sourcing Products and Services
- Module 4: Internal Operations and Inventory
- Module 5: Forward and Reverse Logistics
- Module 6: Supply Chain Relationships
- Module 7: Supply Chain Risk
- Module 8: Optimization, Sustainability and Technology

Colorado Chapter Courses for CSCP: *We have room for 15 students*

- Classes on Saturdays, **Fall 2025**. (1 hour lunch)
- The Fall 2025 course will be an **online** Instructor-led class.
- Class includes one set of student materials, including online access and exam credit.
- $3,010 for Certification-Level Members, $3,310 for all others
  Note: Eligibility requirements for CSCP have been eliminated.

"I am a supply chain professional of more than 15 years, and MCIPS Qualified. I had an opportunity to study the CSCP Course through my employer and was keen to brush up my existing knowledge and skills. The Colorado ASCM course has provided me with a wider knowledge and understanding of the end-to-end supply chain. The instructor-led learning gives an opportunity to ask questions to these supply chain professionals as well as other students. The online learning material is categorised into easier to follow modules and test questions to help prepare for the exam. I would recommend this course to anyone wanting to polish their supply chain skills and keep up to date with the ever-changing supply chain environment. It's a valuable investment." **Angie Armstrong, CSCP, MCIPS, Senior Global Sourcing Manager, CooperVision UK**

HunterDouglas "I highly recommend the CLTD offered through Colorado ASCM/APICS to any supply chain professional interested in furthering their career. This course offers extensive review of the entire logistics networks, distribution strategies, and supply chain connectivity from demand and supply planning." **Stephen Robles C.P.M, CPIM, CSCP, Former Director of Materials & Warehouse Operations, Hunter Douglas**

What are Students saying about APICS Education in Colorado?

"Taking the Colorado Chapter ASCM CPIM course in Spring 2024 was instrumental to my passing the CPIM exam. Honey and Roger spent hours imparting their wealth of knowledge while encouraging open discussions and bringing in real world examples to ensure we understood the material. Their insights were genuinely helpful and I would encourage anyone pursuing their CPIM certification (or another ASCM certification) to take this course. I can't recommend it enough!" **Molly Gilbert, CPIM, Master Supply Planning Manager, Ball Corporation**

"The value of this Colorado ASCM Chapter CPIM class cannot be over-stated. The time, effort and experience that are brought to the class by the instructors brings the material together in a way that is easy to understand and apply and most importantly, commit to memory. The Saturday class was well worth the time investment and that time was respected with a full and fruitful agenda that made the most of it. I highly recommend this class!" **Stephanie Hensley, Distribution Coordinator III, MKS Instruments**

"I recently completed the APICS CPIM course through the Colorado ASCM Chapter to prepare for the CPIM exam. I highly recommend this chapter for anyone wanting to improve their supply chain expertise or get ready for ASCM exams. The classes were extremely interactive, with students sharing real-life work experiences and challenges. The instructors were very knowledgeable and consistently available for discussions and assistance as needed." **Itode Fubara, Supply Chain Manager, General Shale Brick**

"I signed up for the CSCP course at the end of May where I was going to study on my own and later take the test when I felt ready. As I read about the weekly class, I was a little hesitant at first, but I'm so glad I enrolled in the course held by the Colorado ASCM Chapter. I started at the end of July and took it weekly through November. The class was intuitive, stimulating and I can honestly say it helped me to pass the CSCP exam by December. I highly recommend the class to any aspiring CSCP professional!" **Anabelen Mendoza, CSCP, JBS USA, International Documentation Specialist**

"I began working toward obtaining my CPIM soon after beginning my career in manufacturing. Everything I have learned from APICS/ASCM has elevated my effectiveness in my job, even before I received the certification. The classes I attended with Colorado Chapter 81 were especially additive in my education, analogizing the often-difficult study concepts to real-world, recognizable organizations and scenarios. If your career has anything to do with supply chains, production, quality, purchasing, etc., you cannot go wrong with CPIM**." Jason Rhine, CPIM, Production Planner, Gogo Business Aviation**

"I came into the Colorado ASCM Chapter's CSCP course to expand my Supply Chain knowledge after several years in Distribution for CooperVision. It was made very clear to us that course would cover a wide range of Supply Chain topics and take a lot of work and effort from us as students. This was true but the course was very rewarding. We had a large group with a wide and varied background in the organisation and we found that this led to some high value interactions on subjects throughout the course. I've been able to utilise the knowledge in my role as some of my own team also took the course at the same time. This in turn expanded and improved my knowledge and understanding of subject matter. I plan to use the qualification and knowledge in my continuing work managing Supply Chain processes. **David Bowers, CSCP, Business Process Lead, Inventory and Supply Chain, CooperVision UK**

Membership News

One of the critical, but unsexy, metrics for supply chain success is reliability. For routine tasks and processes, having those operate the same way and at the same cadence is a critical factor. One of the many Chapter models for reliability is the Colorado Chapter Newsletter production. It reliably shows up in your e-mail inbox every month in time for you to schedule any events or courses of interest to you.

It's a team effort to publish the newsletter and Wayne Meis, our Director of Publishing, is on point each month to organize this effort. He is part of the BOD value chain who create content, assemble a draft, proofread, edit and finally reliably publish the Newsletter to our membership. He has done this very well for years. Thank you, Wayne!

If you have any questions or comments about our newsletter, don't hesitate to reach out to me or Wayne. We are here to help.
